

MDF polymer-coated piece on face and edge

Melamine-coated back surface

Height	100mm to 2400mm
Width	100mm to 1200mm
Thickness	10mm to 30mm

FURNITURE COMPONENTS MANUFACTURER

INFORMATION ON THE MATERIALS

- MDF medium density fiberboard panel
Formaldehyde emission: Class E1
- Thickness tolerance: +/-0.3mm
- Melamine-coated back surface
- Density: 750 to 800 Kg/m³

Glue

- Pure polyurethane glue
- High adhesion
- Insoluble in water

Film

- Polymere coat
- Thickness : 0,35mm to 0,5mm
- Density : 1,3 à 1,5 g/cm³
- REACH certified

SCOPE FOR USE:

- Kitchen façades
- Façades (or sides) for furniture bath-rooms
- Dressing doors
- Layout

CHARACTÉRISTICS:

- Abrasion resistance: Class (2D)
- Temperature resistance: Class (2A)
- Scratch-resistant: Class (2A)
- Temperature resistance: Class 5 (>75°)
- Light stability: ≥ 6 (Blue scale)
- Resistance to climatic variation: Class 3
- Gloss: >80 (Brightness), 7 +/- 2 (Matt)
- Chemical Resistance: Class (1B)
